**II. Town recreational amenities:**

The following section is to collect information about recreational amenities available in your town and beyond. For each amenity, please check off its distance from your central town point, the condition of the amenity, and whether it has the specific access features listed. You may include amenities that are located in surrounding towns if you know that residents living in your town tend to use them (for example, if there is not a skate-park in your town, but people travel to the next town over to use that town’s skate-park, be sure to include it). If there are any comments related to a specific amenity, please write it in the space provided. If there is more than one of a specific amenity in the town (e.g., two different parks), please list additional amenities in one of the “Other Amenity” sections at the end of the tool.

### III. Town Food Environments:

The following section is to collect information about the food environment in your town and beyond. For each food retail location, please check off its distance from your central town point, the availability of fresh fruits and vegetables, and the access to those fresh fruits and vegetables. You may include food retailers that are located in surrounding towns if you know that residents living in your town tend to use them (for example, if there is not a farmers' market in your town, but people travel to the next town over to use that town's farmers' market, be sure to include it). If there are any comments related to a specific food retailer, please write it in the space provided.
